CENSUS OF ENGLAND AND WALES, 1881.

INSTRUCTIONS

TO THE

CLERKS EMPLOYED IN CLASSIFYING THE

OCCUPATIONS AND AGES OF THE PEOPLE.

1. The OCCUPATIONS of the People are to be abstracted in conjunction with their AGES from the Enumeration Books; but with some exceptions.

(*a.*) Children under 5 years of age are not to be abstracted.

(*b.*) "Scholars" or "Pupils" and all others without specific occupations under 15 years of age are not to be abstracted.

(*c.*) Those Females only are to be abstracted who are returned as following some specific occupation.

(*d.*) All Males, with the exception of those already mentioned in (*a*) and (*b*), are to be abstracted, whether they are returned as with or without specific occupation.

2. The OCCUPATIONS under which persons are returned are many thousands in number; and are arranged in an Alphabetical Index at the end of this book.

The thousands of Occupations have been grouped together under three hundred and ninety-nine ***Headings***; each of which Headings has a place on the Abstract Sheet (pages 9–20).

These ***Headings***, with the various occupations that have been grouped under them severally, are given in the Classified List, pages 21–100 in the order in which they appear on the Abstract Sheet.

The three hundred and ninety-nine Headings have been further grouped in Sub-orders, Orders, and ultimately in six great Classes, and this Classification is given at page 5.

3. The ALPHABETICAL INDEX contains all the occupations under which persons are most likely to be returned in alphabetical order, with a statement against each as to the Heading to which it is to be referred, and the Order and Sub-order in which such Heading will be found.

4. The ABSTRACT SHEET contains all the Headings in the order of the Classification, with columns or spaces for abstracting the Occupations under six groups of ages. In order to catch the eye readily, some important headings are printed in large type.

(*a.*) Males and Females are to be abstracted separately and on separate Sheets. The Abstract Sheets are similar for the two sexes; and often, in order to avoid crowding the space for the heading, the term applicable to one sex alone is given (*e.g.*, Fisherman); but (with the exception of Farmers' relatives, *see* § 4, page 3) must be understood to include the term applicable to the other sex (*e.g.*, Fisherwoman).

(*b.*) At the bottom of the Abstract Sheet is a vacant space, for the use of which, *see* § 6, page 3.

5. The Abstractor is recommended to study the Classification and the Abstract Sheet carefully, and to familiarise himself with their details. The object with which the Classification has been made is to enable him to find the exact place to which a person following any given Occupation should be referred with greater facility than had he on each occasion to refer to the Index.

The more carefully he studies the Classification and the Abstract Sheet, and the more completely he fixes them in his memory, the more rapidly will he be able to do the work of abstraction; and, as the remuneration will be in proportion to the amount and accuracy of the work done, the larger will be his earnings.

He is also recommended to be content at first to work slowly and cautiously, until he shall have obtained a good practical knowledge of the process; for, though by so doing he will at first get through a comparatively small amount of work, and may therefore be earning at first but small remuneration, he will find that by

following this method he will very soon acquire a power of working with great rapidity and accuracy; and, as both accuracy and speed are taken into account in determining the amount of pay, he will eventually earn much more than by attempting too rapid a rate of work, before he is thoroughly familiar with its details.

The ticks must be made with regularity and neatness.

6. The following rule is to be observed in the process of abstracting:—

Find for each person in the Enumeration Book, by means of the Alphabetical Index or the Classified List, the proper Heading, Sub-order, and Order to which his or her Occupation should be referred; then turn to the Abstract Sheet, find there the Heading, and put a tick against it in the proper age column.

After having carefully studied and become familiar by some practice with the Classified List and the Abstract Sheet, the Clerk will generally be able to refer the persons to their appropriate place on the Sheet without turning to the Alphabetical Index. But he must use this until he has obtained such practical familiarity, and in all cases when he is in doubt.

From time to time the Clerk will come upon Occupations which are not to be found in the Index. Sometimes he will have no difficulty in dealing with these and finding a proper place for them, namely, when the Occupation mentioned is clearly some branch of, or some slightly different name for, an Occupation which is in the Index. Common sense in such cases will guide him. But in other instances he will come on Occupations which are neither themselves in the Index nor readily referable to any to be found there. In such case the Clerk will write *the name of the Occupation and the age of the person* in the blank space at the bottom of the Abstract Sheet; and these will afterwards be dealt with by a special person.

As writing the trade and age will occupy more time than an ordinary tick, an extra allowance will be made for all such entries.

In all cases where the Clerk is in doubt, or sees reason for deviating from the Index, he must apply for direction to the Superintendent of his room.

RULES FOR TICKING IN CERTAIN SPECIAL CASES.

1. A person is often returned as *following several Occupations*. The general rule in such case is to select for ticking that Occupation which would seem the main or more important one. If there be none such, *the first in the entry* is to be selected; but

(*a.*) A *Clergyman who is also a Schoolmaster* must be ticked to Schoolmaster.

(*b.*) A *Member of Parliament* or *a Magistrate* who is *also engaged in a profession or a branch of industry*, say as a Barrister, or a Brewer, or a Banker, is to be ticked to the special profession or industry.

(*c.*) "*Auctioneer and House Agent*" or "*Auctioneer and Surveyor*," or other combinations including Auctioneer, to be ticked to Auctioneer.

2. *Male Persons returned by Rank, Degree, or Property* only are to be ticked to the Unoccupied group, order 24.

(*a.*) But *Peers of the Realm* are regarded as engaged in the Occupation of legislation, and must be ticked to "Peer, M.P., Privy Councillor," order 1, sub-order 1.

(*b.*) Some persons also, though strictly speaking they are only returned as *owners of property*, yet are so generally engaged in *working their property*, that they must be referred to the specific Occupation implied in the return, *e.g.*,

Shipowner.
Quarry owner, proprietor.
Mine owner.

In this matter common sense must be the guide.

(*c.*) Not uncommonly persons return themselves in the Occupation column by letters, such as B.A., M.A., D.D., M.R.C.P., &c., &c. Some of these imply specific Occupations; thus D.D. only belongs to clergymen, M.R.C.P. and M.D. only to medical men, &c. In such cases the tick must be made to the Occupation implied. But B.A. and M.A., D.C.L., and many other letters imply no specific Occupations; the ticks must be made accordingly under order 24. The Clerk should acquaint himself with the more common of such literal suffixes, so as to be able to deal with them; but, in case of coming upon any with which he is unacquainted, must apply to the Superintendent for direction.

(*d.*) *Foreign officials*, such as Ambassador, Attaché to Embassy, Consul, Foreign Officer, &c., &c. are to be referred to the order 24.

3. *Merchants* dealing in some stated commodity, *e.g.*, Tea-merchant, Coal-merchant, Rag-merchant, China-ware-merchant, &c. are to be ticked by the nature of the article in which they deal. But *Foreign*

Merchants, or Merchants designated by the name of a country, as East India Merchants, China Merchants, &c., &c. are to be ticked under the heading "Merchant" (order 5, sub-order 1).

Agents and *Brokers* as a rule are to be ticked to Agent, Broker (order 5, sub-order 1); but the following are exceptions;—

Advertising Agent Advertisement Agent Railway Advertisement Agent	Newspaper Agent, Order 9, Sub-order 1
Bank Agent	Bank Service, Order 5, Sub-order 2
Bill Broker, Agent	Bill Discounter, Order 5, Sub-order 2
Book Agent	Publisher, Order 9, Sub-order 1
Canal Agent	Inland Navigation Service, Order 6, Sub-order 3
Coal Agent	Coal Merchant, Order 21, Sub-order 2
Distiller's Agent	Wine and Spirit Merchant, Order 16, Sub-order 2
Furniture Broker, Agent	Furniture Dealer, Order 11, Sub-order 2
House Agent	House Agent, Order 5, Sub-order 1
Insurance and Assurance Agent, Broker	Insurance Service, Order 5, Sub-order 3
Land and Estate Agent	House Agent, Order 5, Sub-order 1
Law Agent	Barrister, Solicitor, Order 3, Sub-order 2
Money Agent	Bill Discounter, Order 5, Sub-order 2
Surface Agent	Tin or Copper Miner, Order 21, Sub-order 1
Theatrical Agent	Theatre Service, Order 3, Sub-order 7
Wine Agent	Wine Merchant, Order 16, Sub-order 2

4. A *Farmer's Son, or close male relative*, aged 15 or upwards, and *living in the farmer's house*, and not described as of any other specific Occupation, must be regarded as engaged in agriculture, and ticked to the Heading provided in order 7, sub-order 1. But the corresponding female relatives are not to be ticked at all.

(*a.*) All *persons* returned as *farming land*, whether the land be their own or hired, are to be ticked to "Farmer."

(*b.*) Persons returned simply as "*Cottagers*" are to be ticked to "Agricultural labourer;" but the term "Cottager" is sometimes used for a small occupier and cultivator of land. If, therefore, the entry be such as to imply that the person is a small cultivator, *e.g.*, "Cottager, with five acres of land," it must be ticked to "Farmer."

(*c.*) Persons entered as *Carters* simply, if in a large manufacturing or commercial town, are to be ticked to "Carman, &c.," but, if in a rural district or small town, to "Agricultural labourer."

(*d.*) *Farm Servants* are to be ticked to "agricultural labourer;" unless their duties be described as of household character, as "Cook," "Housemaid," "General Servant," in which case they must be referred to Domestic Servant. *Dairymaids* in farm houses are to go to "Agricultural Labourer, Farm Servant, &c."

5. *Clerks* employed in any branch of Commerce or Industry are to be ticked, not to the special branch, but to the heading "Commercial Clerk," but—

(*a.*) Clerks in Civil Service, to "Civil Service Officer" (order 1, sub-order 1).
(*b.*) Army Clerks, to "Army Officer" (order 2, sub-order 1).
(*c.*) Navy Clerks, to "Navy Officer" (order 2, sub-order 2).
(*d.*) Law Clerks, to "Law Clerks" (order 3, sub-order 2).
(*e.*) Shorthand Clerks to "Reporter" (order 3, sub-order 5).
(*f.*) Clerks in Banks, to "Bank Service" (order 5, sub-order 2).
(*g.*) Clerks in Insurance Offices to "Insurance Service" (order 5, sub-order 3).
(*h.*) Railway Clerks, to "other Railway Officials" (order 6, sub-order 1).
(*i.*) Clerks at Book Stall to "Bookseller" (order 9, sub-order 1).
(*j.*) Clerk of Works to "Builder," (order 11, sub-order 1).

Book-keepers, Cashiers, Secretaries (not private) are to be considered as Clerks.

6. *Apprentices*, *Improvers*, *Journeymen*, and *Assistants* are to be ticked to the Occupation to which they are apprenticed or in which they assist. If the Occupation is not directly stated, nor to be gathered indirectly from the Enumeration Book, they must be ticked to the Indefinite group, order 22, sub-order 2.

7. *Messengers*, *Errand boys*, *Porters*, *Watchmen* (excepting Railway and Government), are to be ticked to the Heading in order 6, sub-order 5 provided for them; and not with reference to the nature of the place of business in which they are employed.

8. *Warehousemen* are to be dealt with as follows:—

(*a.*) When persons are apparently meant, who are simply accessories in some manufactory or house of business, being employed in its store department, they are to be ticked by the nature of the manufactory or industry to which they are attached.

(*b.*) When the term "Warehouseman" appears to be simply another name for dealer or shopkeeper, *e.g.*, in "Fancy-goods Warehouseman," "Manchester Warehouseman," and the like, the tick must also follow the special kind of goods dealt in.

(*c.*) When, however, persons are meant who keep places (or assist in the management and work of places) distinct from manufactories, and serving simply as store-housing establishments, they are to be ticked to the heading "Warehouseman," order 6, sub-order 4.

9. *Workmen* having any distinct trade or occupation of their own with a Heading for it on the Abstract Sheet, but carrying it on in some manufactory, institution, or house of business, Government or other, are to be ticked to their own occupation or trade, and not to the manufacture to which they are temporarily, or even permanently, attached. For instance, a Carpenter or a Bricklayer is to be ticked to those Headings, independently of the place in which he works.

10. *Labourers* returned as working in any special manufacture or industry are to be ticked to that manufacture or industry. Those returned simply as "Labourer" or "General labourer" to the Indefinite group. There are special Headings for "Road labourers," "Railway labourers," "Agricultural labourers."

11. *Tenders, Drivers, Stokers, and Firemen of Engines* (not agricultural, nor on railways, nor in ships), are to be ticked under the heading in order 22, sub-order 2, independently of the place or manufactory in which they work.

12. It very often happens that the same trade designation occurs in many perfectly distinct industries. Thus, in numerous distinct manufactures there are Spinners, Bobbin-carriers, Weavers, Grinders, Finishers, Packers, &c., &c. Strict directions have been given that in all such cases the nature of the manufacture shall be stated in the Enumeration Book. But, doubtless, it will often be found that the necessary addition has not been made. Sometimes the Abstractor will be able to supply the missing information himself, or to obtain it from the Superintendent; when, for instance, there is some one predominating or exclusive manufacture in the sub-district with which he is dealing; and in such cases he will tick accordingly. But when this resource fails him he must tick such vaguely designated workmen to the Indefinite groups of workers, namely, to order 17, sub-order 5, if employed in Textile Manufacture, and to order 22, sub-order 2, if employed in other or unspecified manufacture. Similarly, *Managers, Superintendents, Inspectors, Overlookers, Overseers, Foremen, Gangers*, and the like are to be ticked by the manufacture in which they are employed, and when the manufacture is not specified to order 22, sub-order 1.

13. Persons returned as *Retired* from, or *formerly* in, any profession or trade are not to be ticked to their former Occupation, but to order 24; but

(*a.*) *Retired Officers* of the Army and Royal Navy are to be ticked to their profession.

(*b.*) Idiots, Imbeciles, and Lunatics are to be considered as retired from business.

(*c.*) Almsmen, and Almswomen, and Inmates of Almshouses are to be considered as retired from business.

(*d.*) Paupers and Inmates of Workhouses are to be ticked to trade when stated.

(*e.*) Prisoners are to be ticked to trade when stated.

14. Persons returned as ordinarily following any trade or occupation but as being *out of employment* are to be ticked to the trade or occupation stated.

15. In different parts of the country the *same name* is *sometimes used to designate different Occupations*. For instance, "Clothier" in Yorkshire means "Cloth-maker," whereas in other parts it means "Clothes Dealer." *Different names* also are applied in different parts to *one and the same Occupation*. The man, for instance, who lays tiles or slates on a roof is, in London, &c., called a "tiler" or "slater," but in the western counties he is called a "parchester." In some counties a Shoemaker is called "Cordwinder" or "Cordwainer," and so on. The Clerk must be on his guard against errors from such confusion of terms, and in cases of doubt must apply to the Superintendent.

ALPHABETICAL LIST OF OCCUPATIONS, SHOWING THE ORDER AND SUB-ORDER TO WHICH EACH IS TO BE REFERRED.

In searching for Occupations that are expressed by more than one word, as "German Silver Filer," if not found under the first (German) must be sought under each successive word.

Many Names in the Classified and Alphabetical Lists are purely local, and some scarcely more than nicknames, it has been found necessary, however, to include these as they are used in the Returns.
